## About Me

Passionate about using technology to solve real-world problems, I am focused on growing my skills in web application development and Mobile application development. With a strong learning mindset, discipline, and resilience, I value collaboration, respect, and equality. I am seeking an IT internship to contribute meaningfully while enhancing both technical and interpersonal skills.

## Projects

- Smart Water Companion – Microcontroller-Based Hardware Project  
*Team Project | ESP32, Firebase, React* Level 01 | 2023
  - Built a low-cost IoT solution with ultrasonic, turbidity, temperature, and flow sensors for smart water monitoring.
  - Automated control using solenoid valves/relays, with real-time data via Firebase and a React web app.
- WayFinde – Travel Planning & Reservation Platform  
*Industry Collaboration with 99x | React, ASP.NET Core, SQL Server, Azure* Level 02 | 2024
  - Developed a web app for trip planning, transport & accommodation booking, and content sharing.
  - Implemented scalable backend with ASP.NET Core & SQL Server, deployed on Azure.
- Herbal & Cocopeat Product Website  
*Ghost CMS | HBS, HTML, CSS, JavaScript* 2024
  - Designed a responsive product showcase site with categorized listings, pricing, and galleries.
  - Customized Ghost themes and Handlebars templates with admin panel for content management.
- Marketing Manager  
*Laravel, MySQL, PHP, HTML, CSS, JavaScript* 2025

This project is a comprehensive Education Management System developed using Laravel. It provides features for users to view available courses, enroll in courses, and manage their personal dashboard, focusing on user experience and functionality.
